earthship, the waste system does not need expensive community sewer plants or ground-contaminating septic systems. Just as in gray water sealed systems, the black water goes to a particle-sealed containment tank and then flows to second and third containment beds designed to keep the liquid from going into the ground. water use.

### **Earthship Building: An Egocentric Method of Construction**

The earthship concept, as envisioned by Reynolds, is suitable for all climate zones. However, there are no known studies that assess the feasibility of the earthship concept in terms of thermal comfort, electricity generation, water supply, or, ultimately, financial considerations. This paper studies the feasibility of the earthship concept
