Nutrition is the science that interprets the interaction of nutrients and other substances in food in relation to maintenance, growth, reproduction, health and disease of an organism. It includes food intake, absorption, assimilation, biosynthesis, catabolism, and excretion. The diet of an organism is what it eats, which is largely determined by the availability and palatability of foods.

With regard to lesbian sexual practices, anal sex includes fingering, use of a dildo or other sex toys, or anilingus. Some lesbians do not like anal sex, and anilingus is less often practiced among female same-sex couples. There is less research on anal sexual activity among women who have sex with women compared to couples of other sexual orientations.

A healthy diet and regular physical activity are important for general health and can help you stay a healthy weight. This may be particularly important if you have prostate cancer, as there is strong evidence that being overweight raises the risk of aggressive (more likely to spread) or advanced prostate cancer.. A healthy lifestyle can also help manage many of the side effects of treatments ...
