Measure " measurement scale of the variable. The default chosen by SPSS depends on the data type. For example, for variables of type "numeric," the default measurement scale is a continuous or interval scale (referred to by SPSS as "scale"). For variables of type "string," the default is a nominal scale.

Problem Read the following file, ~/SPSS/nba.txt, into an SPSS data set. Solution 1. Select Read ASCII Data from the File Menu. From the Read ASCII Data drop down menu, choose Fixed Columns. This will open the Define Fixed Variables dialog box which will be used to define each variable.

### **SPSS Instruction Manual - UWG**

There are a few ways to input data in SPSS. The simplest way to input data is from its own format, the .sav file. Sometimes data doesn't come in the .sav format. Data can come from another program like Excel using the .xls, or .xlsx formats, It can come as a multi-program portable file in the .por format, or as text in the .txt or .csv formats.
