### **Human Resource Courses - University of Phoenix**

In recent years, information technology has had a profound effect on human resources (HR) processes and practices. However, relatively little research has examined its effectiveness, and most of the existing studies have not assessed the degree to which these new systems enable organizations to reach their HR goals of attracting, motivating and retaining employees.

### **The influence of technology on the future of human**

Pre-World War II In the early 20th century and prior to World War II, the personnel function (the precursor of the term human resource management) was primarily involved in record keeping of employee information; in other words, it fulfilled a "caretaker" function.
