Summary: Civilian UFO organizations have nearly always operated on a shoestring budget, essentially volunteer organizations. Still many of them managed to do remarkable work over the past 50yr, investigating and documenting UFO sighting reports. Overall, perhaps about a thousand (1000) UFO organizations have been created all over the globe since the 1950s, but only a handful of them became ...

Hyperrealism is a genre of painting and sculpture resembling a high-resolution photograph. Hyperrealism is considered an advancement of Photorealism by the methods used to create the resulting paintings or sculptures. The term is primarily applied to an independent art movement and art style in the United States and Europe that has developed since the early 1970s.

1. INTRODUCTION - A transistor is a small electronic device that can cause changes in a large electrical output signal by small changes in a small input signal. That is, a weak input signal can be amplified (made stronger) by a transistor. For example, very weak radio signals in the air can be picked up by a wire antenna and processed by transistor amplifiers until they are strong enough to be ...
