Defining architecture. While the central concept in the Standard is architecture description, it was unavoidable that such a document could escape offering a definition of architecture as well.. This page presents the definition and discusses its rationale. For discussion of other terms used in the Standard, see the [conceptual model].3.2 architecture's fundamental concepts or ...

ISO/IEC/IEEE 42010: Defining "architecture"

A software requirements specification (SRS) is a description of a software system to be developed. It is modeled after business requirements specification, also known as a stakeholder requirements specification (StRS). [citation needed] The software requirements specification lays out functional and non-functional

requirements, and it may include a set of use cases that describe user ...

Introduction. This manual is the basic textbook for anyone writing an ASTM standard. A study of Parts A, B, C, or E will show the proper form for the principal types of standards including a detailed explanation of how to write each section, from the title to the appendixes. Within Parts A, B, C, and E, the first section lists the preferred sequence of headings and indicates whether these ...
