

### **image processing based on pdf**

Part 1: Image Processing Techniques 1.7 1.2. Image processing software Different commercial general purpose and specialized image processing/analysis software packages are available on the market. For many practical applications commercially available software is the best choice. However, for some of the applications, described in Part 3, no

Applications of Image Processing Visual information is the most important type of information perceived, processed and interpreted by the human brain. One third of the cortical area of the human brain is dedicated to visual information processing. Digital image processing, as a computer-based technology, carries out automatic processing,
