Microfinance initially had a limited definition - the provision of microloans to poor entrepreneurs and small businesses lacking access to bank and related services. The two main mechanisms for the delivery of financial services to such clients were: (1) relationship-based banking for individual entrepreneurs and small businesses; and (2) group-based models, where several entrepreneurs come ...

The results showed the highest level of automation in project management (73%), followed by 46% for performance management, and the lowest results were related to Benefit Management, OPM Maturity assessment, and business excellence practices with 5%, 8%, and 14% respectively.

### **Governance model for integrating organizational project**

Intensive farming involves various types of agriculture with higher levels of input and output per cubic unit of agricultural land area. It is characterized by a low fallow ratio, higher use of inputs such as capital and labour, and higher crop yields per cubic unit land area. This contrasts with traditional agriculture, in which the inputs per unit land are lower.
