

### **introduction to statistical methods pdf**

The statistical analysis process ! Make sure you have a good data set to start with ! Generally we advise using Excel (see Workshops 4 and 5) before using SPSS (see Workshop 7) 1. First describe and present your data, e.g. frequency distributions in tables or charts 2. Calculate basic statistics where possible, e.g.

### **Introduction to Statistical Analysis - Flinders University**

There are at least three methods of constructing frequency distributions (then drawing histograms) in the Excel program. One way is simple but could be tedious for very large data sets; one way is simple and powerful, if you have the right program elements in your version of Excel; and the last way is a nightmare that I hope you can avoid.
