Using a compact point and shoot digital camera and i would like to ask it is worth it to upgrade to a DSLR camera? How huge a difference do DSLR cameras make compared to compact point and shoot digital camera? Thanks for the question I'll attempt to keep my answer brief and not too ...

Should You Buy a DSLR or Point and Shoot Digital Camera?

Should You Buy a DSLR or Point and Shoot Digital Camera? Should you buy a DSLR or point and shoot digital camera? This is a common question for many people who are looking for a new camera. The answer depends on your needs and budget. DSLR cameras offer more flexibility and better image quality, but they are also more expensive and bulkier. Point and shoot cameras are easier to use and more portable, but they have fewer features and lower image quality. If you are a beginner or want a camera that is easy to use, a point and shoot camera might be a better choice. If you are a more serious photographer and want the best possible image quality, a DSLR camera is the way to go.
