American Chemical Society - ACS Publications Home Page

A natural product is a chemical compound or substance produced by a living organism—that is, found in nature. In the broadest sense, natural products include any substance produced by life. Natural products can also be prepared by chemical synthesis (both semisynthesis and total synthesis) and have played a central role in the development of the field of organic chemistry by providing ...

Core Mission. The core mission of the College of Natural and Behavioral Sciences is to prepare individuals for careers in scientific research, math/science education, or applied science fields such as medicine, dentistry, engineering, computer technology, and clinical psychology ...

College of Natural & Behavioral Sciences

Natural science is a branch of science concerned with the description, prediction, and understanding of natural phenomena, based on empirical evidence from observation and experimentation. Mechanisms such as peer review and repeatability of findings are used to try to ensure the validity of scientific advances.. Natural science can be divided into two main branches: life science (or biological ...

Natural science - Wikipedia

Welcome to the Department of Chemistry. Chemistry, the central science, is an integral part of modern life and forms the basis for advances in nearly all areas of science and technology. Students and faculty in Chemistry at the University of Maine work together to answer questions related to major societal issues: energy, the environment, modern materials, and health and medicine.
